Dear Mr. Legare:

We have received your letter of March 10, 2000, requesting a minor modification of the Building 779 Decommissioning Operations Plan (DOP) relating to certain information and changes to work plans for below ground sumps and pits in the 779 cluster. We have reviewed the modification and discussed the related issues between members of our respective staffs. This letter constitutes approval of the modification pursuant to paragraph 127 of RFCA.

Specific monitoring and assessments of concerns regarding the sumps in Buildings 779, 782, and 783 will be performed as agreed upon in a meeting between CDPHE, EPA, and site personnel on March 7, 2000.

Feel free to call Edd Kray at 303-966-2115 if you have any further questions.

Sincerely,

Steven H. Gunderson
CDPHE RFCA Coordinator
